Missing Courses in Blackboard

When you logged into Blackboard, are one or more of your courses that you are currently enrolled in missing?

Is it before the semester begins?
If the course is online, it will appear 72 hours before the course starts.
If the course is face-to-face, it will appear 72 hours before the course meets.

Is it after the semester has started?
Here are a few reasons as to why this happens:

1. Course does not start until the 2nd 8 weeks or some other time later in the semester. There are some courses that run the whole 16 weeks, first 8 weeks, last 8 weeks, first 10 weeks (Nursing), and even 4 weeks.
   a. Check in Campus Connect under your Course Schedule to see what day the class actually starts.
2. Dropped for non-attendance. This happens because you did not submit work or did not attend class before the deadline for non-attendance.
   a. Contact the Registrar’s office.
3. Dropped for non-payment.
   a. Contact the Business office.
4. Just added back to the class today.
   a. Check Blackboard in 24 hours. The course should appear in 24 hours from the time you were added back to the class.
